STRATEGY

Your organization will want to leverage MEDITECH Expanse's advanced capabilities — from solutions that help keep your physicians and nurses mobile, to Ambulatory for urgent care and practices, to Virtual Care for telemedicine, and more. To accomplish this, you'll need a consulting firm that understands how to help you prepare. We:

- ◆ Evaluate and finalize project governance
- ◆ Assess budget and resources needed to support the project
- ◆ Develop high-level and detailed project plans
- ◆ Identify project gaps and risks

Our strategic services will help you achieve maximum user adoption and true transformational change throughout your integrated delivery network.

IMPLEMENTATION AND OPTIMIZATION

MEDITECH Expanse allows for significant personalization. HealthNET consultants' extensive healthcare experience — and deep knowledge of best practices and MEDITECH applications — will help you design workflows that will be key in meeting your organization's goals. We provide hands-on building, testing, and training. We track project status throughout the implementation, report and help resolve issues. Before, during, and after go-live, our team is adept at providing knowledge transfer to your staff, so you'll be well-positioned to maintain and support your system.

REVENUE ENHANCEMENT

HealthNET's complete approach to the revenue cycle has proven to be successful in increasing cash flow and lowering AR days. Our thorough methodology combines a strong knowledge of MEDITECH's capabilities with business operations expertise to optimize workflows in scheduling, registration, charging, coding, and business office areas.

HealthNET has developed its team with a single purpose in mind — to ensure our client relationships have a lasting impact on their organizations' success. Email us at hello@healthnetconsulting.com to learn more.
